

INNOVATION IN EVERY COAT.™

AK01 AND AK02

SHOP PRIMERS

ECONOMICAL STEEL PROTECTION

Cost-effective, reliable steel primers **AK01 Tnemec Shop Primer** and **AK02 Tnemec Universal Primer** are high-solids alkyd coatings that provide extended weathering protection for structural and miscellaneous steel. AK01 and AK02 cure quickly and are easy to apply, allowing for fast stacking and throughput in steel fabrication shops. Depending on project needs, AK02 accepts a variety of high-performance topcoats. These primers offer consistent performance, with higher volume solids and better coverage rates, and meet MPI #79 as an excellent one-coat, weldable primer for steel surfaces.

Plus, these more-efficient, lower-VOC alkyd primers are delivered with a history of performance and innovation. For over 100 years, Tnemec has been creating one-of-a-kind coating solutions that have helped protect valuable structures across the globe, providing unmatched customer and technical support along the way. With dependable service, reliable quality control and on-time delivery, AK01 and AK02 are the ideal shop primer solutions.

FEATURES AND BENEFITS

- Offered in SPGR Gray and SPRD Red
- Meets SSPC-Paint Spec No. 15 & 25 (AK01)
- Manufactured in the United States
- High-solids
- Economical
- Applicator-friendly
- Quick cure and recoat capabilities
- Fast dry-to-stack time
- Excellent weathering resistance
